What Is So Attractive About Violence?

How do you feel about the attitude in Trenton? What do you think of the hate and violence in our city. Do you contribute to it? If you are sincere about eliminating hate, then you must at least say so. What if only 50% of the people said "I will not support hatred". Treating others with respect is not that hard, it's actually quite easy. Our community will only have an attitude of hate and violence if you allow it! So if that attitude is present here, it is here because not enough people have stepped forward and said enough is enough.

It is true, we cannot change the whole city overnight, but we can make a difference in one small area.

Foundations is the place where we can make a difference. What if we filled Foundations with people that believe that all people should be treated with dignity and respect. What if all those that want a new attitude came to Foundations all on the same night. What if there was so many that we spilled out onto the street and Trenton began to change! Think about it-it can happen.

Where Did The Music Go?

So what has happened to all the musicians? There was a time when Foundations would be flooded with guitar players on Friday night. Where are they now? We can record you playing and store it on a memory stick for you to take with you!
